### Description: IcabCool Electric Cabinet Fan

Cabinet cooler, 20cfm.
Cabinet cooler removes heat generated by components located in smaller cabinets, credenzas, lecterns and entertainment centres. Thermostatically controlled to operate only when needed to extend fan life and minimise dust, this quiet-cooling device features an aesthetically designed vent that can be painted to match its environment.

## Description: Quadra pull out open frame rack drawer 360

The Quadra equipment rack drawer is on easy run glides which have a quick release catch for easy removal with a 360 degree turn table with lock.
The drawer also benefits from a 360 degree turn table which is lockable via a cabinet key, this design feature enables access to the back of the equipment for service.
This enables the integrator easy access to the equipment within the lectern or cabinet.
The benefits of using this drawer are serviceability or hot swap in case of equipment break down and installation. Finished in black powder coat.

If you would like to be able to utilise one of our Quadra open frame equipment racks above, we can design any of our wooden lecterns to accommodate this pull out equipment drawer. Our design team will be pleased to work up a 3D visual and quote.
