# Control rooms and enquiry rooms

## Control room furniture

Quadra AV Furniture have designed a standard range of control room furniture, from control desks, rack cabinets and media walls for any type of control room.

We have the Responder (above and below) Command, Principal, Progression Range.

Stone Grey melamine finish

## **The Principal Range**

The Principal range is designed with the 24/7 environment in mind.

Built-in cable management allows easy access as well as slick clean lines, the design can be fully tailored to your requirements, such as locking access panels for PCs.

We also have a wide range of chairs designed for high use environments to ensure the comfort and ergonomic requirements of your teams.

## The Command One

The Command One range is designed to give users a optimised viewing site for monitoring. The range is fully adaptable to your specific needs, we offer many colour and finish options and offer a wide range of accessories.

The range offers solutions for:

**command centres – network operations centre – surveillance centres – CCTV monitoring – data centres - control rooms – traffic control centres – process control**

Black melamine finish

Windsor Oak melamine finish

## The Progression Range

The design can be fully tailored to your requirements, including the option for an electrical height adjustable version.

We are happy to come out and discuss your requirements, ensuring we create a design that fully meets your demands. We will work with your AV integrator to accommodate any AV equipment that you will be using, giving you a fully customised and clean environment.

Once we fully understand your requirements we will provide CAD designs and will work with you to make sure your vision is met.

## The Responder Range

The Responder range is a more contemporary style where you can locate your monitors into the table well which will reduce the height of the screens.

The design is based around square modular units

There are numerous colours and finishes to choose from, these can be real wood veneers, laminates or melamine's.

# Court rooms & enquiry rooms

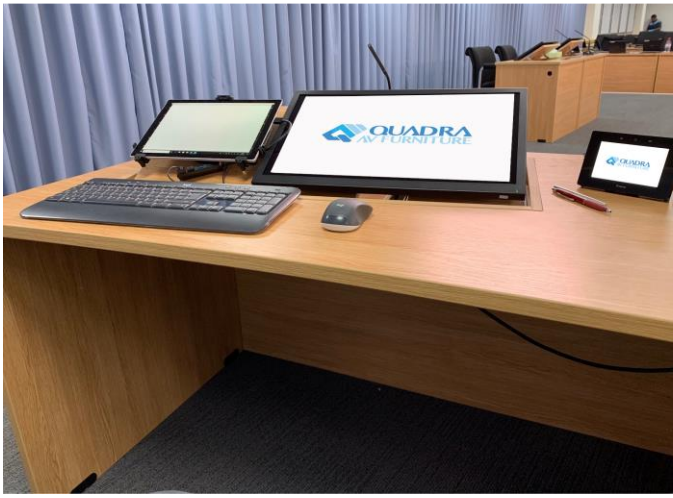

Here at Quadra AV we understand the unique requirements needed for courtroom and public enquiry furniture, this is why we spend the time to listen and discuss exact requirements for every case.

Even before we start the design of the bespoke furniture we will arrange a meeting to establish the full requirements. We then site survey the room which allows us to define the perfect size and spacing layout. This ensures the furniture is correctly scaled relative to the dimensions of the room and the amount of people it can support. This allows for easy access and creates a comfortable space for the people attending.

Have a look below to see some examples of some courtroom tables we have designed, manufactured and installed.

Quadra AV Furniture source the highest quality hardwoods and real wood veneers. The varying grain and figure of these woods genuinely emphasise the natural beauty and individuality of the material. No two pieces of timber are identical and there will be natural variations in the grain, knots and colouring. This arises from natural minerals in the wood.

If you have a specific finish in mind please contact us with details and we will source samples for you.

We work with all the main manufacturers including Kronospan, Egger and Formica.

We also work with specialist veneer companies who have a vast array of stock from exotic, bold, warm, fresh and modern veneers.

Decorative laminate is a mainstay of commercial interior design and Quadra can offer the latest designs and textures as well as classic best sellers.
