Collaboration Tables & Screen towers 2021

QUADRA AV FURNITURE

Collaborate Control Communicate Converse

AV lecterns, cabinets, media walls, video walls, collaboration tables, huddle spaces, boardroom and meeting room tables, control desks, server racks, screen stands / trolleys and sound management solutions to name a few

The all new Alliance tables & towers

The Alliance range is the perfect solution for group thinking. It features a table design allowing all participants to clearly see each other and the display screen.
We can incorporate easy screen connection and video conferencing can be incorporated.

At Quadra we have developed a range of innovative solutions designed to enhance the current trend for collaborative working, making the best use of the space available.

WorkZone tables

These are similar to the Alliance tables but totally constructed of wood, where the screens are inset into a media style wall which also incorporates a connected table. For some larger screens, the unit will need to be fixed back to a wall.
We can make these in any finish from veneers, laminate's to melamine's.

Description: Alliance 3 table

Alliance collaboration VC meeting table to seat 3 people. The table fits a 49" to 55" screen and includes a video conference camera shelf. The screen has a rear steel shield which is removable for service and easy install. The base has 2 steel legs with removable outer panels for cable access. The centre leg is a box type base with fixed panels one side and doors to the other, this will keep all you cables out of sight and away from harm.
Comes with 1x mains / USB charge power port in the worktop.

HEIGHT ADJUSTABLE

Approximate size (mm)
Height   1846mm
Width   1340mm
Length   1800mm

Description: Alliance partition system to make a meeting area

A versatile walling solution for creating meeting areas.

Quadra has designed a partition system which can be put up quickly and can be easily dismantled and stored. The walling is ideal if you have an open plan office and require a meeting space.
We can make these in any finish. The external panels are removable to provide access for cable management across the whole structure.
This allows total flexibility for mounting screens and connectivity within the space.

This is an ideal location to add an Alliance meeting table and screen.

European Oak	American White Oak	Crown Cut Ash	Crown Maple	Crown American Walnut

Quadra AV Furniture source the highest quality hardwoods and real wood veneers. The varying grain and figure of these woods genuinely emphasise the natural beauty and individuality of the material. No two pieces of timber are identical and there will be natural variations in the grain, knots and colouring. This arises from natural minerals in the wood.

If you have a specific finish in mind please contact us with details and we will source samples for you.

We work with all the main manufacturers including Kronospan, Egger and Formica.

We also work with specialist veneer companies who have a vast array of stock from exotic, bold, warm, fresh and modern veneers.

Decorative laminate is a mainstay of commercial interior design and Quadra can offer the latest designs and textures as well as classic best sellers.
Over 26 years of experience within the audio visual furniture industry and with a reputation for being friendly and reliable to deal with, we treat every project with the same level of importance.

Our furniture is manufactured at our York facility which you are welcome to visit and see your project in the build process or just to have a look around.

You will be able to see the high level of investment in technology and the deep passion we have for what we do.
